

## SUBJECT INDEX (VOLUME 2, 2018)

### Batik

*Analysis of consumer behaviour and energy calculation of the end of life phase on stamped batik products*, Djunaidi, M., & Ayuningtyas, D., 2(1) (2018) 1

### Capacity building

*Disaster risk reduction on Mount Kelud eruption based on capacity building: A case study in Kesambon District, Malang Regency*, Rahmawati, D., Rachmawati, T. A., Prayitno, G., 2(1) (2018) 24

### CO<sub>2</sub> emission

*The relationship between the freight transportation, economic growth and environmental degradation experienced by ninety countries*, Listiono, 2(1) (2018) 11

### Consumer behaviour

*Analysis of consumer behaviour and energy calculation of the end of life phase on stamped batik products*, Djunaidi, M., & Ayuningtyas, D., 2(1) (2018) 1

### Disaster risk reduction

*Disaster risk reduction on Mount Kelud eruption based on capacity building: A case study in Kesambon District, Malang Regency*, Rahmawati, D., Rachmawati, T. A., Prayitno, G., 2(1) (2018) 24

### Disaster impact

*Disaster risk reduction on Mount Kelud eruption based on capacity building: A case study in Kesambon District, Malang Regency*, Rahmawati, D., Rachmawati, T. A., Prayitno, G., 2(1) (2018) 24

### Economic

#### Economic growth

*Environmental quality and economic growth: Evidence from 10 ASEAN countries*, Rifa'i, A. & Dewi, N.R., 2(2) (2018) 65

#### Economical speed

*Marine fuel efficiency for oil and gas offshore operation support activity by application technology based speed control and contractor performance management*. Kelana, A., Lignafinza, A., Machfud, M., Soedadi, Suryaningsih. 2(2) (2018) 86

### Electrocoagulation

*The influence of electrocoagulation on the reduction of COD, BOD, and TSS of Batik Industry wastewater*, Zuhria, F., Sarto, S., Prasetyo, I. 2(2) (2018) 100

### End of life

*Analysis of consumer behaviour and energy calculation of the end of life phase on stamped batik products*, Djunaidi, M., & Ayuningtyas, D., 2(1) (2018) 1

### Energy

*Analysis of consumer behaviour and energy calculation of the end of life phase on stamped batik products*, Djunaidi, M., & Ayuningtyas, D., 2(1) (2018) 1

*The relationship between the freight transportation, economic growth and environmental degradation experienced by ninety countries*, Listiono, 2(1) (2018) 11

#### Energy efficiency

*Marine fuel efficiency for oil and gas offshore operation support activity by application technology based speed control and contractor performance management*. Kelana, A., Lignafinza, A., Machfud, M., Soedadi, Suryaningsih. 2(2) (2018) 86

#### Environmental

##### Environmental degradation

*The relationship between the freight transportation, economic growth and environmental degradation experienced by ninety countries*, Listiono, 2(1) (2018) 11

##### Environmental impact

*Analysis of consumer behaviour and energy calculation of the end of life phase on stamped batik products*, Djunaidi, M., & Ayuningtyas, D., 2(1) (2018) 1

##### Environmental quality

*Environmental quality and economic growth: Evidence from 10 ASEAN countries*, Rifa'i, A. & Dewi, N.R, 2(2) (2018) 65

##### Environmental sustainability

*A new concept for marine environmental sustainability through recovery of magnesium carbonate from traditional salt production wastewater*. Apriyani, M., Hadi, W., Masduqi, A. 2(2) (2018) 99

#### Epanet modeling

*The optimization of water network model in the central of Demak District*, Rezagama, A., Sutrisno, E., Tommy, E., Lovely, N.A., 2(1) (2018) 52

#### Financial capital

*Disaster risk reduction on Mount Kelud eruption based on capacity building: A case study in Kesambon District, Malang Regency*, Rahmawati, D., Rachmawati, T. A., Prayitno, G., 2(1) (2018) 24

#### Fuel monitoring system

*Marine fuel efficiency for oil and gas offshore operation support activity by application technology based speed control and contractor performance management*. Kelana, A., Lignafinza, A., Machfud, M., Soedadi, Suryaningsih. 2(2) (2018) 86

#### Freight transport

*The relationship between the freight transportation, economic growth and environmental degradation experienced by ninety countries*, Listiono, 2(1) (2018) 11

#### Hazard level

*Disaster risk reduction on Mount Kelud eruption based on capacity building: A case study in Kesambon District, Malang Regency*, Rahmawati, D., Rachmawati, T. A., Prayitno, G., 2(1) (2018) 24

#### Hydraulic conductivity

*An approach to identify soil types by using hydraulic conductivity values*, Kusuma, M.N., Hadi, W., Wirjodirdjo, B., Yulfiah, 2(1) (2018) 43

#### Human capital

*Disaster risk reduction on Mount Kelud eruption based on capacity building: A case study in Kesambon District, Malang Regency, Rahmawati, D., Rachmawati, T. A., Prayitno, G., 2(1) (2018) 24*

#### Infiltration gallery

*An approach to identify soil types by using hydraulic conductivity values, Kusuma, M.N., Hadi, W., Wirjodirdjo, B., Yulfiah, 2(1) (2018) 43*

#### Magnesium recovery

*A new concept for marine environmental sustainability through recovery of magnesium carbonate from traditional salt production wastewater. Apriyani, M., Hadi, W., Masduqi, A. 2(2) (2018) 99*

#### Marine

##### Marine sustainability

*A new concept for marine environmental sustainability through recovery of magnesium carbonate from traditional salt production wastewater. Apriyani, M., Hadi, W., Masduqi, A. 2(2) (2018) 99*

#### Mount Kelud

*Disaster risk reduction on Mount Kelud eruption based on capacity building: A case study in Kesambon District, Malang Regency, Rahmawati, D., Rachmawati, T. A., Prayitno, G., 2(1) (2018) 24*

#### Natural capital

*Disaster risk reduction on Mount Kelud eruption based on capacity building: A case study in Kesambon District, Malang Regency, Rahmawati, D., Rachmawati, T. A., Prayitno, G., 2(1) (2018) 24*

#### Optimal design

*The optimization of water network model in the central of Demak District, Rezagama, A., Sutrisno, E., Tommy, E., Lovely, N.A., 2(1) (2018) 52*

#### Pentagon asset

*Disaster risk reduction on Mount Kelud eruption based on capacity building: A case study in Kesambon District, Malang Regency, Rahmawati, D., Rachmawati, T. A., Prayitno, G., 2(1) (2018) 24*

#### Physical capital

*Disaster risk reduction on Mount Kelud eruption based on capacity building: A case study in Kesambon District, Malang Regency, Rahmawati, D., Rachmawati, T. A., Prayitno, G., 2(1) (2018) 24*

#### Salt production

*A new concept for marine environmental sustainability through recovery of magnesium carbonate from traditional salt production wastewater. Apriyani, M., Hadi, W., Masduqi, A. 2(2) (2018) 99*

#### Social capital

*Disaster risk reduction on Mount Kelud eruption based on capacity building: A case study in Kesambon District, Malang Regency, Rahmawati, D., Rachmawati, T. A., Prayitno, G., 2(1) (2018) 24*

#### Soil

*An approach to identify soil types by using hydraulic conductivity values, Kusuma, M.N., Hadi, W., Wirjodirdjo, B., Yulfiah, 2(1) (2018) 43*

#### Three-stage Least Square

*The relationship between the freight transportation, economic growth and environmental degradation experienced by ninety countries, Listiono, 2(1) (2018) 11*

#### Vessel tracking system

*Marine fuel efficiency for oil and gas offshore operation support activity by application technology based speed control and contractor performance management.* Kelana, A., Lignafinza, A., Machfud, M., Soedadi, Suryaningsih. 2(2) (2018) 86

#### Waste

##### Household waste

*Positioning household waste transfer point.* Setiawan, E., Nugrahadi, B., Widyastuti, Y., Djunaidi, M., Suranto, S. 2(2) (2018) 76

#### Waste transfer point

*Positioning household waste transfer point.* Setiawan, E., Nugrahadi, B., Widyastuti, Y., Djunaidi, M., Suranto, S. 2(2) (2018) 76

#### Wastewater

##### Batik wastewater

*The influence of electrocoagulation on the reduction of COD, BOD, and TSS of Batik Industry wastewater,* Zuhria, F., Sarto, S., Prasetyo, I. 2(2) (2018) 100

#### Water distribution Network

*The optimization of water network model in the central of Demak District,* Rezagama, A., Sutrisno, E., Tommy, E., Lovely, N.A., 2(1) (2018) 52

#### Water treatment

*An approach to identify soil types by using hydraulic conductivity values,* Kusuma, M.N., Hadi, W., Wirjodirdjo, B., Yulfiah, 2(1) (2018) 43
